

L1.1: Homework: What stories do our families know about a place that has changed?**Interview Assignment**

Ask a parent, family member, or someone close to you or your family about a place he or she likes which has changed: “Can you tell me about a natural place that has changed a lot in some way?”

1. Who was interviewed?
2. What is the name of the place? Why did you choose it? Where is it?
3. How has it changed? (Explain in detail, please!) What did you see changing? What do you think caused the change?
4. When did you first notice that the place changed? How did you feel about it?
5. Can you describe the place before and after the change in detail so that I can draw it? (Please draw on the back of this page two pictures: one before the place changed and the other after it changed. Label the drawings!)

Thank you so much for helping me learn about natural places that change!
