Please explain. Give examples and be specific.

I gave my group a 4 because we worked together great. I really wanted to do something with a boohoo thing and we found a way to work that in with our If Your Pluto and You know it skit. We got Christophere late but we found a way to work him in. I think if we didn't have Christophere I think we wouldn't have done as well. We all had fun working on our presentation everyday all of us would laugh about something. We solved all our disagreements well. Maria didn't really want to do a skit but Christophere and I did, but we didn't say majority wins. We worked it out and acted out a timeline insted. I think this was the best group I've ever worked with. I had a lot of fun.
