

# Getting Started

What do I work on?

What are your most pressing frustrations? (Think big and small)

What are your main goals for this school year? For the next five years?

What's been on your "to-do" list to improve or to try?

What might students, colleagues, or parents say are problem areas?

## Funnel Your Ideas

Pick your top THREE areas that ultimately seem to have the most impact on your students.

1)

2)

3)

PICK THE ONE THAT IS MOST NECESSARY AND PRACTICAL.

Frame what you want to work on as a question:

How might I/we     ACTION     +     USER     +     IMPACT     ?
