

Final Exam

This project will likely be different from your other exams. This final is to be treated as a conversation between yourself and Ms. Szczepanski, not necessarily a project you create to present to the class (although it will be shared with your classmates).

All of the work for your final exam will take place on this document. **You will not submit this document until you submit your final.** All of the tables you need to complete are in yellow, and the tables Ms. Szczepanski will complete are in blue. Each day, you will need to complete the required portion, and Ms. Szczepanski will respond to it. If you do not complete your work in class, you must complete it in seminar or for homework to stay on track.

You may choose any topic we have covered in class OR a topic you are interested in that we have not yet covered. The overall process will be much more beneficial to your learning and understanding if you choose a topic that you like and you are interested in.

Day 1

| |
|-----------------------------------------------------------------------------------------------------------------------------|
| Student |
| Name: |
| Topic: |
| Type of Presentation: Slide Presentation |
| Brainstorming What will you include in your project? Start listing some basic ideas that you think are important: |

Ms. Ski

Proposed Rubric:

Day 2

Student

Take a look at the rubric Ms. Ski provided for you. What do you think of this rubric? Is there anything you would add/revise?

Begin working on your project. Create an organized list of what you accomplished today:

Ms. Ski

Updated Rubric (if needed):

Comments on classwork from today:

Day 3

Student

What did you accomplish in class today? What questions do you have?

Ms. Ski

Comments on classwork from today:

Day 4 - Last in class work day!

Student

Complete your project. Type “done” once it is complete:

Double check the rubric we created and ensure your project meets all the requirements. Type “done” below after you have done so:

Szczepanski 2023

Share your project with Ms. Szczepanski. Type "done" after you have done so:
