Homework Progress – Practicing for Mastery

Unit 2 / Chapter 1 – Describing Data – Part 1

Parts of tracking table:

Question – kind of obvious, but keep in mind there may be multiple parts for some, so you may need to identify which parts you need help with for complete comprehension.

Correct? – Indicate ALL, PART or NONE based on doing the work on your own and checking answers when you are done. This is intended to aid in practice, not to be punitive.

Comprehension – This is how well you comprehend the focus of the question once you’ve checked the answer. Use a scoring of: 5 – could totally ace a similar problem down to 1 – I’d be totally lost if I saw another question similar to this one.

Prompt for assistance – this could be a specific question you have, a term you need clarified, or some other prompt that helps you remember what to ask about this problem from your table mates or teacher.
