2. The populations of 4 Texas towns are shown below. Put them in order from left to right in order from greatest to least.

Kingsland  
Pop. 7,177

Georgetown  
Pop. 75,420

Bay City  
Pop. 17,882

Missouri City  
Pop. 74,850

Then fill in the blanks to complete the comparison statements and draw an open number line to show the comparison.

__________________’s population > __________________’s population.

__________________’s population < __________________’s population.
