Community Builder Sign Up "Alone we are smart. Together we are brilliant"

As a classroom community, we will dedicate the first ten minutes of our class to an activity that will build our community. Students will take turns planning and facilitating this activity. Activities can range from icebreakers, review games, or discussions. ic. You will need to email your plan before class.

As a facilitator, the secret of a successful community builder is to keep it simple: design the session with specific objectives in mind and make sure that the session is appropriate and comfortable for everyone involved.

Ask yourself questions about how you will meet your objectives. For example:

- How will people become comfortable with contributing?
- How will you establish a level playing field for people with different levels and jobs?
- How will you create a common sense of purpose
