

Connections: create a mind map, for each item we add you will need to draw an arrow and label the arrow with a connection. For example:

Microtubules $\xrightarrow[\text{made by}]{\text{tubulin is}}$ Ribosomes

Connect the following:

- Ribosomes to Mitochondria
- Mitochondria to Nucleus
- Nucleus to Plasma Membrane
- Plasma Membrane to Cytoskeleton
- Cytoskeleton to Vesicles
- Vesicles to Lysosomes
- Lysosomes to Golgi Apparatus
- Golgi Apparatus to Rough ER
- Rough ER to Centrosome
- Centrosome to Microtubules
